

Building film

Our building films are used to cover and protect.

They are monolayer extruded films which are manufactured in a number of visual types from selected reclaimed material for use in various segments of the market.

The films' characteristics and method of manufacture are vendor-specific, and are not governed by any DIN or CE standards.

All the films we manufacture for covering and protection purposes are made entirely from reclaimed material, and may therefore be subject to manufacturing tolerances.

Material:	LDPE
Thickness:	0.08 mm to 0.4 mm
Width:	2 m to 4 m
Length:	25 m to 50 m
Colour:	transparent, translucent, coloured, opaque

Mechanical properties:

Dart drop ASTM D1709	> 1.0	
Tensile strength in N/mm ² : EN ISO 527	longitudinal 14	transverse 12
Tear resistance in % EN ISO 527	longitudinal > 200	transverse > 250
