

## ClimaStar Standard Perforated Film

Our ClimaStar is environmentally friendly, tear-resistant and flexible, designed to trigger earlier harvests.

Our perforated film is easy to open and thereby good to place.

- optimises plant growth through increased air and soil temperatures
- protects against cold, snow and late frost
- excellent for crop forcing and extending the growing season
- minimises bird and wild animal damage

**Perforations:** 250, 500 and 750 holes/m<sup>2</sup>  
other types available on request
